EXPERTISE

PROFILE

My name is Tai - **27 years old**, I am from Ho Chi Minh City. I am a website developer and I really love technology in website. A website can make our life can be better. A website or a application can bring people to technology, bring people to information.

When I found a new technology on website I always find out what is that and try to learn knowledge on that technology.

Business domain: eCommerce, CMS, web application, security.
